## Sanitarium Facilities For Province Sadly Inadequate; Alberta Gov't. to Take Action

Premier Stewart Declares That Delay From Ottawa is Working Severe Hardships Among Tuberular Soldiers and Drastic Move Must be Made Soon—Returned Soldiers' Commission Meets in City

At the conference of the Alberta Returned Soldiers' commission, held in the legislature committee room of the provincial government, it was announced that unless the federal government immediately takes steps to provide all the facilities for a sanatorium in the province, as was agreed upon by the federal and provincial governments over two years ago, the returned soldiers will be forced early next spring to provide the same institutions in the provinces they have been given in the north. This course, it would seem, would be the most logical, but the half the total cost of a large and adequate hospital to be built under such conditions would be borne by the Borden government.

Bowness, west of Calgary.

Some time ago, the B. C. D. S. C. declared that there are now 21 returned soldiers in the province who have not yet been granted a pension.

These men, it was explained, have remained in the province for the sake of their health, and are obliged to remain at their homes as a menace to the public.

Other cases were spoken of by the returned soldiers, who reported that the sanitarians at Frank's are almost all allowed.

Many Pitiful Cases.

"There are many pitiful cases in the army," said one returned soldier, "and the government must take some action at once."

Many important matters pertaining to the work of returning soldiers, the return of horses, taking care of the veterans on their return home, and the like, were discussed.

The meeting was presided over by Premier Stewart.

Alberta Returned Soldiers' Commission, Edmonton, J. A. McLeod, chairman; H. E. Hartigan, vice-chairman; J. M. Montgomery, Bell of the Dominion demobilization unit at Calgary; Capt. G. C. MacLennan, Capt. L. L. Johnson, Dominion vocational school, Mr. J. C. McLean, Mr. Leibnitz, A. J. N. Terrell, of Medicine Hat; J. W. Mitchell, Alberta commanding officer, Lt. Col. Edward Stuebner, secretary of the committee.

Overlapping of Authority.

The question of overlapping of authority at the morning session was that respecting the proposed appointment of a returned soldiers' commissioner to be in charge of the work of the department in conjunction with the labor officials to be appointed by the federal government. It was decided that the appointments to be under the control of the federal government, or that of ministers, or under direct responsibility of the prime minister.

It was decided that the prime minister was the point at issue.

At the recent meeting between members of the federal government and the secretaries of the provincial returned soldiers' commissions, it was clearly decided that these appointments of the soldiers' demobilization com-

It is of course understood that any work on the Canadian side will be done by the Belgians.

The exercise of control lies principally in the thorough study of all contracts made by the Comptoirs, Tissus et Manufactures de l'Etat, or that of munitions, or that of manufacture of munitions, or under direct responsibility of the state.

Correspondence, invited, addressed to the above society, care of the Belgian Consulate in Brussels, forwarding all orders of sale of goods to the Belgian market as far as possible.

The City Council will call a special meeting Friday afternoon to consider the recommendation of the post-war committee regarding the proposed sewer scheme to serve the city.

The committee has recommended that the Swift-Canadian Company's plant be constructed to proceed with its \$800,000.00 worth of dependencies, in part, as follows:

The City Council is of opinion that the required amount of money for improved sewer facilities should be raised by the city, and the scheme No. 1 of which the committee has recommended, is to purchase the plant of the Swift-Canadian Co. and the dependencies, and to let the city engineer to assume the responsibility of the construction.

**SEATTLE METS EASILY BEAT VICTORIA**

**All Win to Score But Once While They Pile Up Seven Goals**

VICTORIA, B. C., Jan. 3.—Playing in mile-a-minute form, the Seattle Metropolitans defeated the local team 7 to 1. The Metis owed their victory to the skill of their players and better condition. The home team showed that they have no markings on their bats, though the players are not made of wood. The visitors had a strong front, but that team is not yet made, while the Victoria team has a number of veterans. Several of the Victoria men were of the Seattle team, and the tactics of the Seattle defense and in tonight's encounter the visitors showed a lack of appreciation of the importance of the game; their passing was poor, and when they did pass their shooting was faster and made more accurate. The defense of the Metis and their checking was excellent all through.

The Metis showed some of the best form on the American side, worked to score unassisted. Bobby George showed wonderful speed and off-hand passing. The visitors had apparently forgotten that a play-off game is a serious affair before he can be a senior.

MATCHES PLANNED FOR ASH BROTHERS CHALLENGE TROPHY

Matches have been arranged for the possession of the Ash Brothers Challenge Cup. The team,挑战者队, will be challenged by Wainwright, and the match will be played on Saturday, January 13th. The winners will play Viking on Tuesday, January 16th.

NEW YORK, Jan. 3.—Brinny Kauf, centre holder of the New York Nationals, today signed a contract for \$1,500 a month to be the first major league player to do so.

Having defeated the local G. T. P. hockey team, Calgary sportmen seem to be in high spirits, and are looking for the new far and wide. Keep it up, Calgary, and we'll be with you. We would do the same.

We wonder if Calgary still claims

Reves as a local boy, having only re-

ceived a draft decision with Carson,

Calgary, and the rest of the broken

hand and 15 pounds in weight.

It is known that Mr. Launder will be here with a ample bodyguard, if it is necessary.

## "Do It Now" "Delays are Dangerous"

The wisdom of these proverbs has found particular illustration in the life insurance business during the recent Influenza Epidemic. Numbers of instances occurred where the benefits of life insurance were missed through failure to act more promptly in presenting claims for payment. Some cases have gone to the extent of policies having been issued, but before they were delivered and the premiums had been paid, ill health and subsequent death prevented the completion of the transaction and the benefits of the insurance were lost.

A life insurance policy is a contract between two parties—the company on the one hand, which insures the life, and on the other hand the person who, in consideration of such benefit, agrees to pay a certain sum of money. Obviously such a transaction must be completed during the "lifetime and good health" of the person to be insured—Therefore—

"Never put off till tomorrow what can be done today."

## FOOD INFERIOR; MEN CROWDED; NO FRESH WATER

Returned Men Tell the Board of Inquiry of Northern Grievances

Winnipeg, Jan. 2.—(UPI)—The returned soldiers opened their story in the Northland inquiry Friday morning. Complaints concerning the quality of the food and the way food was served will be accepted to a separate piece, will be presented to the allied conference. Canada, the United States, Great Britain and all countries which served men in the war, it is said, will have a part in the deliberations.

Two preparatory conferences will be held at the French headquarters, and the results of the paper will be held at Geneva. The debates will not be transcribed. Other newspapers say that the discussions will be kept secret daily. Other newspapers say that the discussions will be conducted by technical advisers on each of the great questions which will have been worked for several weeks.

Local regular conditions are de-

scribed to exist in Boston and Philadelphia with the situation becoming more serious. Three principal causes of the difficulty are the lack of freight handlers, which was reported as a disposition on the part of ship owners to put their vessels in drydock upon arrival, and the fact that instead of continuing the ships in trade, they are being sent home with consequent decrease in labor facilities regardless of existing strike conditions.
